Lincoln Airport Foundation gets off the ground to support facility's future By Roger Dey BVD

Last updated 10/16/2019 at 10:17am

Roger Dey

Aircraft taxi toward the runway at the Lincoln Airport during the 2017 Open House.

With the activity at the Lincoln Airport this year, including construction of a new taxiway that will provide space for several more hangars, Lincoln Airport "guru" Jerry Cain felt the time was right to create a formal organization to assist the Montana Aeronautics Division with the upkeep of the facility.

For several years, Cain has been coordinating events and maintenance at the airport and he said circumstances came together this spring, including the arrival of snow removal equipment from the state, that prompted him to create the Lincoln Airport Foundation.

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

### About This Cause

The Cameron Park Airport Foundation is a 501c3 public charity corporation solely created to provide support to the safe operation of the Cameron Park Airport, a public airport managed under the California codes as an airport special district. In response to resource constraints common to many publicly available general aviation airports, the Cameron Park Airport Foundation complements the Airport's own operating budget with donation-sourced financial contributions and volunteer-sourced in-kind services and assets. These gifts enable the Foundation to support local aviation-related safety, education, and science (STEM) resources that are unique to the Sierra western slope in the Sacramento area.
